

I'm a lifelong resident of Oakley, where my wife and I have proudly raised our children. I've contributed to our community as a local small business owner for 28 years. In these economically challenging times, we need at least one leader on the City Council who has business experience; to date we have none. Here are the issues I will focus on if elected to serve you:

- **Public Safety** –Oakley Police are doing a good job keeping our neighborhoods safe. Chokeholds are now banned. I believe in community policing and support more police officer positions – not “defunding” the police.
- **Attracting Jobs** – While I believe we are moving in the right direction, Oakley lacks a solid business base that can provide good-paying local jobs. I will use my business experience to search “out-of-the-box” solutions to bringing more jobs to Oakley.
- **Pandemic Assistance** – Our residents, local businesses, everyone is hurting from COVID-19. I'd like to see the City of Oakley become a resource for unemployment benefits, COVID testing, free/low-cost food, elderly check-ins, mortgage relief, support for those working from home, etc. Our families need help and we should provide it.
- **Fire/911 Emergency Response** – Making sure our firefighters and ambulances can get to Oakley residents in a timely manner remains a top priority of mine.

Serving you on the Oakley City Council would be a great honor. I will think smart, work hard and **ALWAYS** have our residents'/taxpayers' interests in mind when making decisions on your behalf.

Please stay safe,

Aaron Meadows
Oakley Small Businessperson
